Below is a recap with all details on how to connect your Metamask to the Binance smart Chain.

STEP 1. Open Metamask

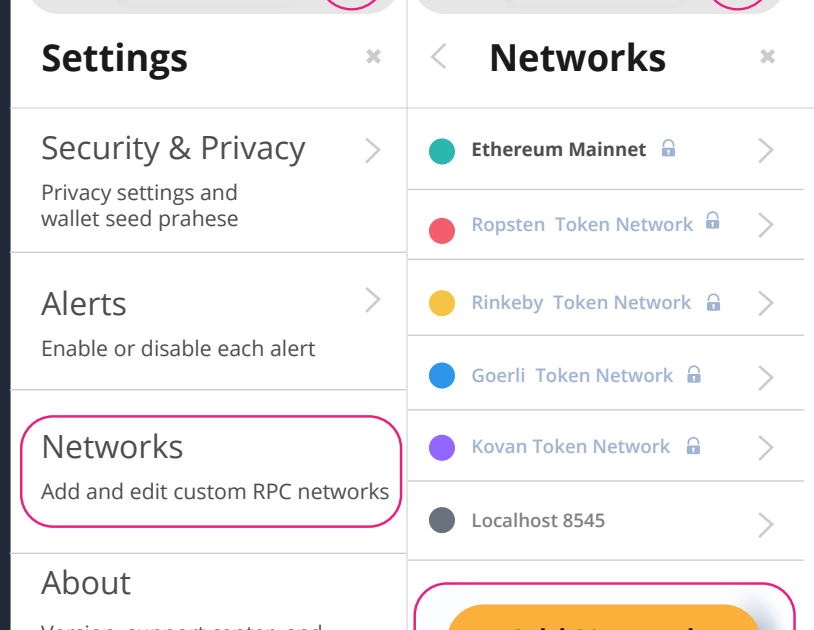

STEP 2. Go to settings

Once in the MetaMask app, click on the logo of your account at the top right. Then click on 'Settings'

STEP 3. Go to networks

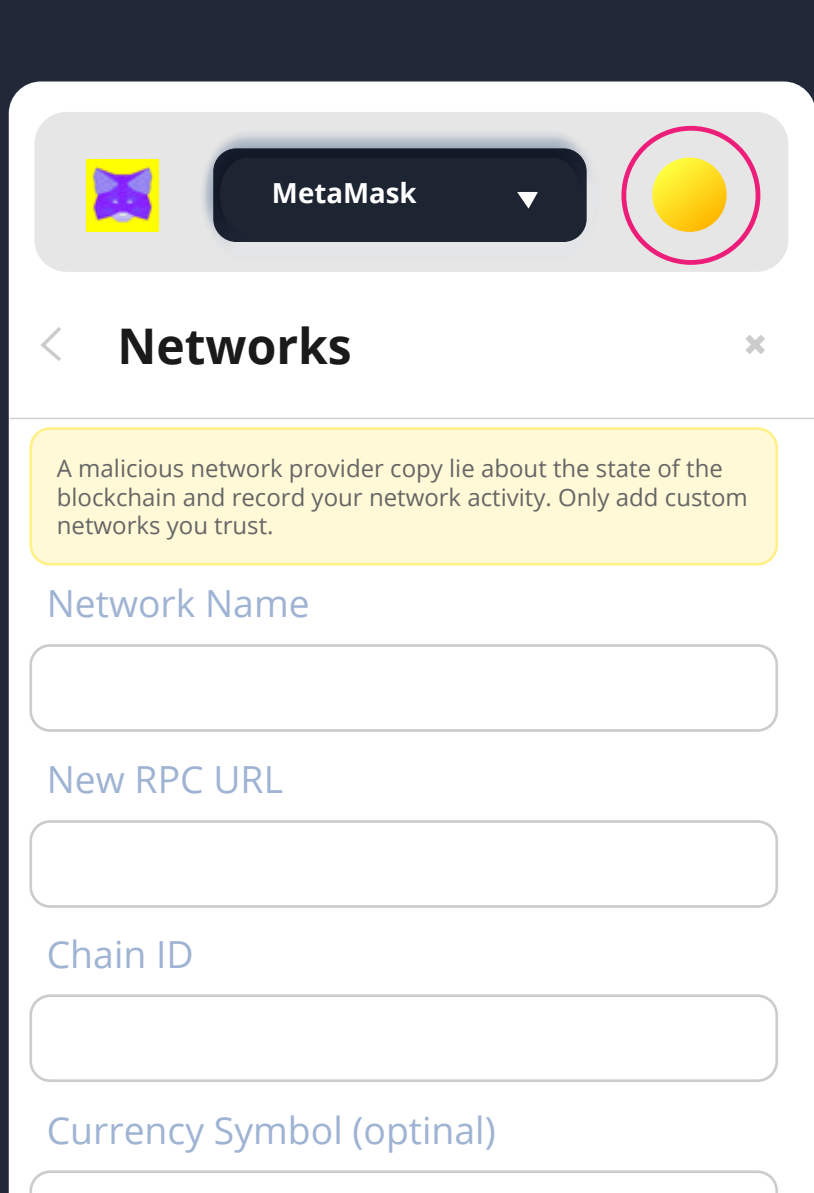

Then click on 'Networks' in the settings menu. A list of networks that your MetaMask wallet is connected to will now appear. Now click on the 'Add Networks' button in the bottom of the window.

STEP 4. Add the network details

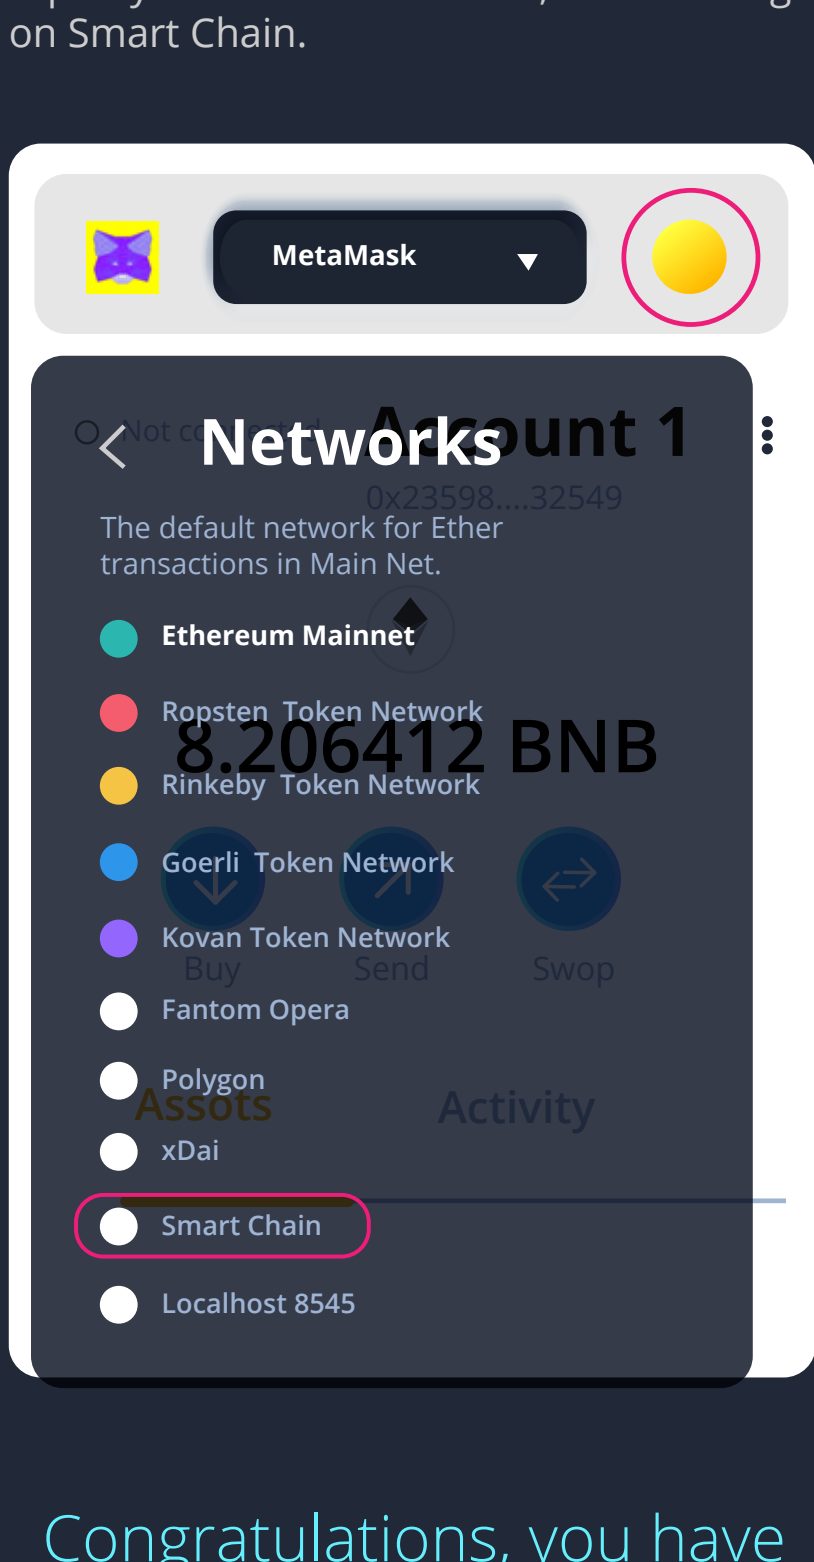

In this window, you will enter the details of the network to be added. MetaMask asks you to enter: Network Name, New RPC URL, ChainID, Symbol and Block Explorer URL. To add the Binance Smart Chain network, enter the following information:

- Network Name: Smart Chain
- New RPC URL: <https://bsc-dataseed.binance.org/>
- Chain ID: 56
- Symbol: BNB

STEP 5. Connect your MetaMask to the BSC network

Don't forget to connect your MetaMask wallet to the Binance Smart Chain Network before sending your crypto into your Binance Smart Chain Address . You do this by clicking on the current network at the top of your MetaMask wallet, then clicking on Smart Chain.

Congratulations, you have just connected your MetaMask wallet to the Binance Smart Chain network!
